

Dr Seyedeh Fatemeh Hojati

Associate Professor of Organic Chemistry

Department of Chemistry, Hakim Sabzevari University, Sabzevar, Iran.

E-mail: sf.hojati@hsu.ac.ir

Education:

B Sc: Pure Chemistry, Isfahan University

M Sc: Organic Chemistry, Shahid Beheshti University.

Ph.D: Organic Chemistry, Isfahan University.

Conferences:

1. S.F. Hojati, I. Mohammadpoor-Baltork, Solvent-free synthesis of mono and bis-oxazolines under microwave irradiation, 40th IUPAC Congress, Beijing, China, p-014, 2005.
2. S.F. Hojati, S.A. Nezhadhosseini, Trichloroisocyanuric acid as an efficient catalyst..., 17th Iranian Seminar of Organic Chemistry, Iran, Babolsar, 13-15.10.2010.
3. S.F. Hojati, Z. Beikzadeh, 1,3-Dibromo-5,5- dimethylhydantoin catalysed synthesis of benzoxazole..., 17th Iranian Seminar of Organic Chemistry, Iran, Babolsar, 13-15.10.2010.
4. S.F. Hojati, A.S, Kaheh, A new route to symmetrical and unsymmetrical indole derivatives, 20th Iranian Seminar of Organic Chemistry, Iran, Hamedan, 3-5.07.2013.
5. S.F. Hojati, Y. Saadati, The one-pot synthesis of spiro [4H-pyran-3,3-oxindole]catalyzed by 1,3-dibromo-5,5- -dimethyl hydantoin(DBDMH)under mild reaction condition, 21th Iranian Seminar of Organic Chemistry, Iran, Ilam, 13-15.03.2014.
6. S.F. Hojati, T. Ghorbani, One-pot three-component synthesis of tetrahydrobenzo[b]pyrane derivatives, 21th Iranian Seminar of Organic Chemistry, Iran, Ilam, 13-15.03.2014.
7. S.F. Hojati, Y. Saadati, Potassium hydrogen phosphate (K_2HPO_4): A mild, efficient and reusable catalyst..., 22th Iranian Seminar of Organic Chemistry, Iran, Tabriz, 19-21.08.2014
8. S.F. Hojati, T. Ghorbani, potassium iodide catalyzed multicomponent reaction for efficient..., Iran, Tabriz, 19-21.08.2014.
9. M. Ghorbani, S.F. Hojati, M. Moosavifar, Encapsulated Mn and Pb Nano Particles in Dealuminated NaY Zeolite as a Reusable Catalyst for One-Pot

- Three-component..., 2th Iran national Zeolite Conference, Iran, Tehran, 27-28, 05, 2015.
10. F. Daghestani, S.F. Hojati, M. Moosavifar, Encapsulated trinuclear metal cluster in dealuminated NaY Zeolite as a reusable catalyst in the Synthesis of 2'-Amino-1,2-..., 2th Iran national Zeolite Conference, Iran, Tehran, 27-28, 05, 2015.
 11. H. Raouf, S.F. Hojati, Efficient one-pot synthesis of spiro[indoline-3,4'-pyranp[2,3-c]pyrazole derivatives catalysed by novel ..., 18th Iranian Chemistry Congress, Iran, Semnan, 30.08.2015-01.09.2015.
 12. S.F. Hojati, S. Mohamadi, The simple synthesis of spiroindoline via multi-component reaction catalyzed by nano magnetic catalyst, 5th national congress on nanotechnology, Iran, Isfahan, 1395.
 13. S.F. Hojati, N. Moeini-Eghbali, The one-pot synthesis of 1,8-dioxooctahydroxanthene catalyzed by a new nano zeolite, 5th national congress on nanotechnology, Iran, Isfahan, 1395.
 14. S. F. Hojati, A. Amiri, S. Ghavidel, Copolymer coated magnetic graphene oxide; a reusable catalyst for the preparation of triaryl pyridines in solvent-free condition, 27th Iranian Conference on Organic Chemistry, Iran, Tabriz, 1398.
 15. S. F. Hojati, A. Amiri, S. Ghavidel, Synthesis of 2,4,6-triarylpyridines catalysed by a novel magnetic nanocomposite on the basis of carbon nanotube, 27th Iranian Conference on Organic Chemistry, Iran, Tabriz, 1398.
 16. S. F. Hojati, M. Moosavifar, S. Ghavidel, Synthesis of 2,4,6-triarylpyridines catalysed using zeolite beta, 27th Iranian Conference on Organic Chemistry, Iran, Tabriz, 1398.
 17. S. F. Hojati, F. Khaleghinasab, The application of MOF-199 organic-metal framework in the highly efficient synthesis of 2'-aminospiro[indeno[1,2-*b*]quinoxaline-11,4'-[4'H] pyran]-3'-carbonitrile, 28th Iranian Conference on Organic Chemistry, Iran, Tehran, Chemistry and chemical engineering center of Iran, 1400.
 18. S. F. Hojati, F. Zeidabadi, The application of copolymer-coated magnetic CNT in the synthesis of Spiro [indolin-3,4'-pyrano [2,3-*c*] pyrazol] derivatives, 28th Iranian Conference on Organic Chemistry, Iran, Tehran, Chemistry and chemical engineering center of Iran, 1400.

Title of Master Theses:

1. New methods for the synthesis of thiazolines and imidazolines, F. Shafiezadeh.
2. New methods for the synthesis of 3,4-dihydropyrimidinone derivatives, M. Haghdoost.
3. The preparation of 5-membered N-containing heterocycles with biological activities, S.A. Nezhadhosseini.
4. The application of orthoesters in the synthesis of some biologically active heterocycles, Z. Beykzadeh.
5. The synthesis of benzopyrazines via condensation of 1,2-diamines and 1,2-dicarbonyls, Z. Nematdoust.
6. New, simple and efficient methods for the synthesis of bis-indolylmethanes, T. Zeinali.
7. New methods for the synthesis of coumarin derivatives, Z. Hadadnia.
8. The synthesis of new heteropoly acids..., L.S. Hosseini.
9. The oxidation of some organic compounds by phosphonium salts, M. Ebrahimpour.
10. The application of new reagents in the synthesis of 1,3,5-trisubstituted 2-pyrazolines and their oxidation, M. Khodaverdian.
11. The oxidation of alcohols, ketals and thoketals by ethylene bis pyridinium periodate, M. Kia.
12. New methods for the preparation of 1,2-oxazines from nitriles, Z. Etemadifar.
13. The preparation of di(indolyl)indolin-2-one using zirconium chloride, A.S. Kaheh.
14. One-pot synthesis of spiro indoline heterocycles by green reagents, Y. Saadati.
15. Tree-component synthesis of tetrahydrobenzo[b]pyranes, T. Ghorbanipoor.
16. A new and efficient method for the synthesis of spirochromene-4,3'-oxindole, M. Ghorbani.
17. New methods for the one-pot multi-component synthesis of spiro oxindoles, F. Daghestani.
18. New and simple methods for the preparation of pyranopyrazoles and phthalazines, H. Raouf.
19. The synthesis of spiroindoline pyranopyrazole derivatives using a new nanomagnetic reagent, S. Mohamadi.

20. The preparation of xanthene derivatives by a new magnetic nano composite, N. Moeini-Eghbali.
21. The preparation of triaryl pyridines *via* multi-component reactions in the presence of magnetic nano catalyst, S. Ghavidel.
22. The investigation of nanoparticle catalysts on the synthesis of spiroindenoquinoxaline compounds, E. Fardi.
23. The use of ninhydrin in the synthesis of biologically active heterocycles via multi-component reaction, M. Mahamed.
24. Molecular switch of cucurbit[7]uril by external stimuli: a molecular dynamics simulation , M. Beykmohammadi.
25. Preparation and characterization of nanomagnetic catalyst based on carbon nanotube and its application in the synthesis of spiropyran compounds, R. Kashki.
26. The study on the catalytic activity of copper metal-organic framework on the preparation of Spiro indoline pyrano pyrazoles. S. Soleimanian.
27. The Use of MOF 199 organic-metal framework in the synthesis of indeno quinoxaline compounds, F. khaleghinasab.
28. The Investigation of the effect of type of polymer coating on the catalytic activity of magnetic nanocomposites in multi-component reactions, F. Zeidabadi nezhad.
